THE NORWEGIAN HYPEREMESIS INITIATIVE

Welcome You to

First World Colloquium on Hyperemesis Gravidarum

Bergen, Norway
20th-21st October 2015

Hyperemesis Gravidarum; excessive nausea and vomiting, is a debilitating condition affecting one out of 100 pregnant women. Join us to learn more about causes and consequences and how to lighten the burden for patients. Bergen; the Western Capital of Norway, welcome you to this two-day international meeting. The Norwegian Medical association has acknowledged it as a 16 hours course for Norwegian General Practitioners and Obstetrics-Gynecologists. We admit **poster presentation** from participants. For further information and registration: www.delegia.com/hyperemesis

Tuesday 20th October

- 09:00-10:00 **Registration**
10:00-10:20 **Welcome**
10:20-10:30 **My experience as hyperemesis gravidarum patient.**
Katrine Moholt
10:30-11:00 **Hyperemesis gravidarum- a historic overview.**
Roger Gadsby – UK
Session I: Causes of hyperemesis gravidarum – what do we know?
11:00-11:20 **Hormones – what do they have to do with it?**
Peng Chiong Tan – Malaysia
11:20-11.40 **Hyperemesis gravidarum and genetic susceptibilities – presentation of Norwegian Studies.**
Per Magnus – Norway
11:40-12:00 **And USA genetic data.** Marlena Fejzo -USA
12:00-12:10 **Discussion – Moderators**
12:10-12:30 **Coffee break**
12:30-12:50 **Latest news on intestinal ecology and pregnancy related conditions.** Merete Eggesbø -Norway
12:50-13:10 **Hyperemesis gravidarum and Helicobacter pylori.**
Kjetil Melby –Norway
13:10-13:30 **Discussion - Moderators**
13:30-14:30 **Lunch**
Session II: Consequences of hyperemesis gravidarum – what do we know?
14:30-15:00 **Hyperemesis gravidarum associated with adverse pregnancy outcomes or not?** Andrej Grjibovski – Norway
15:00-15:20 **Hyperemesis and maternal complications.**
Åse Vikanes -Norway
15:20-15:40 **Is hyperemesis gravidarum associated with cancer in mothers and offspring?** Kathrine Vandraas - Norway
15:40-15:50 **Consequences of HG for the cardio-metabolic health of the offspring.** Iris Grooten - The Netherlands
15:50-16:10 **Discussion**
16:10-16:30 **Coffee break**
16:30-16:50 **Similarities between hyperemesis and the Dutch Famine.**
Tessa J Roseboom –The Netherlands
16:50-17:10 **Psychosocial burden of hyperemesis gravidarum.**
Marlena Fejzo -USA
17:10-17:30 **Hyperemesis and mental health illness.**
Caroline Maltepe - Canada
17:30-17:50 **Prepregnancy physical activity and risk of hyperemesis gravidarum.** Wenche Nystad – Norway
17:50-18:05 **Prepregnancy diet and risk of hyperemesis gravidarum.**
Margareta Haugen-Norway
18:05-18:30 **Discussion – Future research questions. Moderators**
20:00-22:00 **Conference Dinner**

Wednesday 21st October

- 08:00-08:30 **Breakfast**
Session III: Definitions
08:30-09:00 **Hyperemesis gravidarum, definition and biomarkers.**
Rebecca Painter – the Netherlands
09:00-09.20 **PUQE- a useful diagnostic tool ?**
Gideon Koren – Canada
09:20-10:00 **Discussion – Moderators**
10:00-10:20 **Coffee break**
IV: Evidence based treatment of nausea and vomiting in pregnancy
10:20-10:40 **The Mother-risk Program and NVP-call line – 20 years of clinical experience.** Caroline Maltepe -Canada
10:40-11:00 **Prescription of antiemetic's in UK.**
Roger Gadsby - UK
11:00-11:20 **Safety of interventions to treat nausea and vomiting in pregnancy.** Gideon Koren - Canada
11:20-11:40 **The art of rehydration and parenteral nutrition.**
Jone Trovik- Norway
11:40-11:50 **Enteral nutrition.**
Rebecca Painter - The Netherlands
11:50-12:10 **Coffee break**
12:10-12:30 **Patient perspective: Finally!**
Representatives from Norwegian HG organization
12:30-12:50 **Discussion; How to move forward together?**
12:50-13:00 **Summary of conference.** Åse Vikanes

Safe trip home!
