Workshop: Oxidative stress
Chair: Bo Åkerström, Lund University

14.00 Bo Åkerström, Lund University, Sweden.
Introduction

14.10 Siv B Mundal, CEMIR, Trondheim, Norway.
Divergent regulation of decidual oxidative stress response in preeclampsia with and without fetal growth restriction.

14.30 Andreia Matos, Universidade de Lisboa, Portugal.
Possible role of VEGF/Flt1 on future cardiovascular risk in women previously preeclamptic

14.50 Coffee break

15.30 Amanda Kristiansson, Lund University, Sweden.
Alpha-1-microglobulin (A1M) protects fetal and adult red blood cells (RBCs) against in vitro-induced cell death and is internalized by RBCs in the placenta.

16.00 Lena Erlandsson, Lund University, Sweden.
Treatment of preeclampsia with alpha-1-microglobulin. Results in animal models.
