Responsible operations

DOWNSTREAM ACTIVITIES

Responsible sales

Taking responsibility for human rights throughout the supply network

We are just **getting started** and are **exploring how** to establish policies & procedures.

We have a **human rights policy** & have made a human rights **risk assessment** & identified our most **critical risks** in our supply network

We have a human rights **management system** in place, addressing our **full supply network**. We mitigate risks identified through **continuous risk assessments**
