

Posters 13th of June - NSN 2025

	Submitted by	presenter	Nationality	Title
CKD/generell nefrologi				
18	Enoch Ravindran	Enoch Ravindran	Norge	A man in his seventies with a rare and often fatal skin condition
Dialyse				
24	Ulf Forsberg	Ulf Forsberg	Sverige	The Emboless® venous chamber extensively reduce air contamination passing into HD patients blood
25	Olafur Skuli Indridason	Olafur Skuli Indridason	Island	Use of hemodialysis catheters and access related infections in Icelandic dialysis patients
Glomerulonefritter/glomerulær sykdom				
26	Sandra Saschenbrecker	Kersten Dieckmann	Tyskland/Nederland	Relevance of anti-PLA2R levels in therapy decision and prediction of therapy outcome using cyclophosphamide and steroids treatment in patients with membranous nephropathy
27	Maria Eriksson Svensson	Maria K. Svensson	Sverige	Patient characteristics and treatment patterns in ANCA-Associated Vasculitis: an observational study based on the DEMONSTRATE database, Uppsala, Sweden
28	Donna Kennedy	Milica Uhde	Sverige?	Implications of Proteinuria Remission on Estimated Glomerular Filtration Rate (eGFR) Trajectory in Patients with IgA nephropathy in the PROTECT Trial
29	Donna Kennedy	Milica Uhde	Sverige?	Concomitant Sparsentan (SPAR) and Sodium-Glucose Cotransporter-2 Inhibitors (SGLT2is) in Adults with IgA Nephropathy (IgAN) in the Ongoing Phase 2 SPARTACUS Trial
30	Saga Ingadottir	Saga Ingadottir	Island	Alport Syndrome in Iceland: Epidemiology and Outcomes
31	Øystein Eikrem	Marthe Alvestad	Norge	Establishing a Dynamic Three-dimensional in vitro Model of Human Glomerular Diseases
32	Øystein Eikrem	Yuying Sammy Choi	Norge	Optimized Proteomics Workflow for Low-Input Laser-Microdissected FFPE Tissue
33	Øystein Eikrem	Henrik Foshaug	Norge	Long -Term Follow-Up of Kidney Transplant Recipients with Membranoproliferative Glomerulonephritis
34	Øystein Eikrem	Simen F. Pettersen	Norge	Spatial transcriptome analysis of archival biopsies reveals cell type specific gene expression in situ and primes investigation of the clinical course in idiopathic nephrotic syndrome
Tx				
35	Zdenek Lys	Zdenek Lys	Tsjekkia	Molecular microscope in kidney transplant recipients - first experience from a small transplant center
36	Ruth Cecilie Strømme	Ruth Cecilie Strømme	Norge	Long-term efficacy and safety of ibandronate after kidney transplantation - benefit without risk?
38	Lisa Westenberg	Lisa Westenberg	Nederland/Norge	Pre-donation body mass index, metabolic factors, and post-donation kidney function trajectories in living kidney donors - a cohort study
39	Eva Carlsson	Eva Carlsson	Sverige	Pregnancy complications and outcomes in kidney donors between 1973-2022 - a nationwide retrospective registry-based study
40	Lene Ugilt Pagter Ludvigsen	Lene Ugilt Pagter Ludvigsen	Danmark/Norge	Risk and prognosis of post-transplant lymphoproliferative disease in Epstein-Barr virus-seronegative kidney transplant recipients - an observational cohort study from Norway and western Denmark
42	Yasmin Reyes	Yasmin Reyes	Norge	Cardiovascular risk and echocardiography parameters in living kidney donors; The control group matters.
43	Torbjørn Fossum Heldal	Torbjørn Fossum Heldal	Norge	Low-grade systemic inflammation is a predictor of graft loss and mortality after kidney transplantation
44	Joe Chan	Joe Chan	Norge	The long-term effect of marine n-3 polyunsaturated fatty acid supplementation in renal transplantation: A randomized controlled trial
45	Tommy Aronsen	Tommy Aronsen	Norge	Evaluating effect on physical function and frailty of a home-based training program developed for kidney transplant recipients
