

Arrowhead Presentations/Demonstrations at booth at ECS Stockholm 2015-11-03 - 04

Label/Title	Presenting partners
End to end security automotive test applications	AVL List GmbH Infineon Technologies Austria AG
Energy Tariff and Prediction Services for energy cost optimization applications in multiple domains (manufacturing, lift, water)	Schneider Electric industries SAS
Dynamic operation and maintenance	Valmet automation Teknologian tutkimuskeskus VTT Tampere University of Technology Wapice Ltd
Collaborative Engineering for Assembly Automation	Ford Motor Company Fully Distributed Systems Ltd High Speed Sustainable Manufacturing Institute
Wheel Loader	SKF Luleå University of Technology
3D localization	PS-Tech B.V. Luleå University of Technology
Public buildings energy/comfort management system	ACCIONA Infraestructuras S.A.
PLC/WIFI arrowhead smartmeter	Ikerlan S. Coop Fagor Electrónica S. Coop.
Urban light system + Public Building (BCN)	INDRA Sistemas S.A.
Urban light system (SS)	Mondragon University
Car Heating system	Tampere University of Technology THT Control OY
Smart energy meter	University of Bologna
Remote connection to real charging station	EUROTECH SPA BITRON SPA
Wireless power transfer design concept	CRF
Traffic, charging station and booking simulation	University of Bologna
Comfortable Home	Lyse Energi A/S SINTEF
Energy management and optimisation	Aktiebolaget Elektronik-Konstruktion Innovation (Abelko) NODA Intelligent Systems AB
Virtual Market of Energy	Aalborg University Neogrid Technologies ApS Instituto Superior de Engenharia do Porto (ISEP) Honeywell spol s r.o.
Configuration management	Midroc Electro AB
Arrowhead Framework Core systems, On line test lab, Conformity tests, test tool	BnearIT AB Luleå University of Technology
Secured wireless maintenance operation	Thales Communications & Security SA
Aircraft maintenance	Airbus Operations SAS
